

INNOVATION

Strong patent portfolio and know-how to secure your projects

OPERATIONAL EXCELLENCE Part of JBT Hub Up alliance

securing your project from conception to manufacturing

EXPERTISE

Cross-functional teams in fluidics, mechanics/ plasturgy, electronics/ software and QA

Our expertise enables us to adapt our QA/Regulatory system to your product regulatory status

AGILITY

Company size and project management system allow us to be agile and innovative problem solvers with a track record of providing outside-thebox solutions

INNOVATIVE AND ACCURATE

e-DEVICES FOR AESTHETIC

How to inject easily dermal fillers with or without adjuvants?

New practices bring new challenges for filler providers willing to better serve patients, in a competitive market.

Intuity® Mix Easy-to-use mixing device for adjuvant and dermal fillers

But mixing needs to be done extemporaneously due to poor stability of these adjuvants to sterilization.

Time consuming for the doctor and assistant

Complex heterogeneous mixing, dosing errors, user dependent

Not safe biocontamination, needle stick injuries

Intuity® Ject HV Aided injector for dermal fillers

Injection of viscous dermal fillers are often associated with problems for patients, MDs and filler providers.

Imprecise inaccurate dosage

Intuity[®], our solution for easy preparation and injection of dermal fillers with or without adjuvant

Intuity® Mix Automated preparation, mixing dedicated to liquid-gel mixing, lyo reconstitution and emulsions

Intuity® Ject HV Automatic and wireless injection device dedicated to viscous liquids and gel-like products

How it would work?

Filler provider

MD

Patient

Provides a kit of NaHA + adjuvants to MD

The 2 products are mixed automatically in a ready-to-use syringe

Receives a perfectly homogeneous product painlessly

Ject HV

Σ

Provides the easy-to-use and elctronic injector with dermal filler

Plug the syringe on Intuity® Ject HV

Receives an accurate and painless injection for optimum results
