How to do personalized preparation and delivery?

The beauty market is focusing on customers' demand for personalized products and solutions. The technologies developed by EVEON meet this challenge and offer beauty tech devices with modular solutions for automated preparation and delivery.

Intuity® Mix, an extemporaneous & personalized mixing platform to prepare and deliver precise doses

Plug-and-play

Easy to use with only one user action
From mixing to dispensing

Digital

Web app for users
Personalization & Monitoring

Mixing solution

For a large range of preparations: emulsions, suspensions, gel/cream mixing...

Customization

Personalized formulation
preparation on-demand

EVEON Intuity® Mix

- Reusable device with single-use disposable cassettes
- Adapted to any primary containers
- Mixing liquid/liquid (ie dilution, emulsification...) or liquid/solid (ie suspension, dispersion...) or gel mixing

How to do personalized preparation and delivery?

Intuity® Spray, airless nozzle for a precise and controlled delivery of mist

Airless, propellant free

Sterility, eco-friendly

Fine and soft mist

Droplet diameter ~20µm
Low impact pressure for a better user experience

Precise and personalized dosing

Controlled flow rate
User-independent

Digital

Human-machine interface
Personalization & Monitoring

EVEON spray nozzle

- For continuous delivery
- Accurate dosage
- From low to highly viscous formulations (to 8.000 Pa.s)
- Adapted to primary containers

Examples of targeted areas

Aesthetic

Hair care

Dermatology
